Michelle's book review

Skating Sensation by Rachel Renee Russell

Skating Sensation is the story of a girl called Nikki Maxwell and her life at school. It is the fourth book in the Dork Diaries series, I would advise you to read the books before it, however you don't have to as it won't affect the story. This book is set out as diary entries, which makes the reading experience so much fun seeing chatty chapters and emojis! There is also so many drawings that are really hilarious.

Skating Sensation is my favourite book from the series because it's just so funny! It will make you laugh out loud and read the book over and over again! Nikki is such a funny character and you can relate to her humour, and cringe when she gets into awkward situations. The author also writes so convincingly as a child and it's exciting, tense and full of drama. By the end you will want more of this loveable book! So please read this book, it's suitable for all ages and you won't be disappointed!

Mahmoud's game review

Danger Mouse, CBBC

Age: Four years and up

The aim of Danger Mouse is collecting coins, getting weapons and keys and to defeat the bad guys. By doing that, you have to have fun and complete the levels.

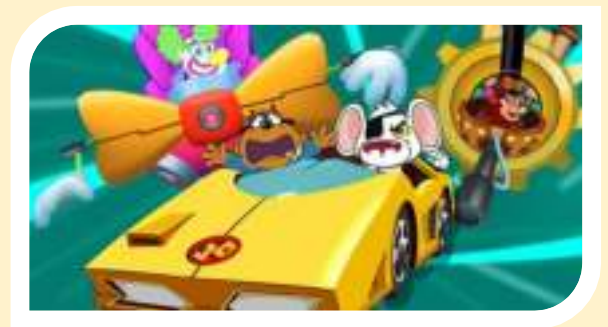

My favourite part is destroying the bad guys.

My least favourite part is the easy levels and losing.

I would recommend this game because I think it is fun for others to try.

5 stars ★★★★★
