

Art Task - 16.6.20

Good morning everyone!

In our last Art task, we studied the artist Carl Warner and expressed our own Art ideas in the style of Warner's work. Some of you made some excellent foodscapes! Check out the fantastic work [HERE](#).

Art focus today:

To show different tones and texture in my sketches.

Today we are going to do some sketching. I know how much you enjoyed doing this in class in your sketchbooks.

I would like you do some 'still life drawing.'

Still life is simply a painting or drawing of objects. The **subject** is objects rather than living things, such as in portraits.

Watch this video to see how to sketch a bowl of fruit.

Task

I would like you to gather some fruit and vegetables and arrange them how you would like on a table or clear space.

You will then begin to sketch and draw your still life image.

This will take some time, as you will need to add in your shading to show shadows and light and dark tones.

You can either do a black and white image or you can use colour if you want to. Remember to keep looking at the still life so you can add all of the details!

Good luck!

I can't wait to see you finished pieces! Remember to upload a photo and I can add your work to the blog.

Here are some examples for you to see...
