

Maths Task – 19.5.20

MNP Workbook: 3A

Chapter 3: Multiplication & Division

Lesson 12&13: Solving Word Problems (pages 103-106)

Skill: I can solve word problems involving multiplication.

Yesterday we recapped on the relationship between multiplication and division. Today we will be solving word problems involving multiplication.

In Focus

How many pupils are there altogether?

Let's Learn

- 1 There are 4 pupils in each row.

There are 7 groups.

$$7 \times 4 = 28$$

There are 28 pupils altogether.

- 2 There are 5 groups of 3 children.
Each group has 3 children.
How many children are there altogether?

$$5 \times 3 = 15$$

There are 15 children altogether.

There are 5 groups of 3.

Now have a go at the Guided Practice below in your yellow homework book.

Guided Practice

Solve.

- 1 At a shop, toy robots are sold in sets of 3.
How many toy robots are there in 9 sets?

$$\square \times \square = \square$$

- 2 There are 6 shirts.
Each shirt has 4 buttons.
How many buttons are there altogether?

$$\square \times \square = \square$$

- 3 One flower has 4 petals.
How many petals do 8 flowers have?

- 4 There are 8 stools.
Each stool has 3 legs.
How many legs are there altogether?

Now you have warmed up, you are ready to complete your Maths No Problem worksheets.

MATHS
NO PROBLEM! 

1. Complete Maths No Problem worksheet 12&13 (pages 103-106). Once you have completed, ask an adult to help check your answers using the MNP website.

Support

If you are finding these worksheets tricky, practise multiplying and dividing by 8 on the BBC Bitesize website.
