

Maths Task – 5.6.20

MNP Workbook: 3A

Chapter 6: Mass

Lesson 1&2: Reading weighing scales (pages 167-168)

Skill: I can read weighing scales to determine mass in grams or kilograms.

Well done for all of your work this week on measuring length. We will now move on to measuring mass.

Let's Recap...

In Focus

How can we find out which is the heaviest and which is the lightest?

Let's Learn

We use weighing scales.

The bag of crisps weighs about 200 g.

The watermelon weighs about 1 kg.

The bag of sugar weighs about 3 kg.

We say the mass of the bag of sugar is about 3 kg.

Which is the lightest?

Which is the heaviest?

Guided Practice

How heavy is each thing?

(a)

The apple weighs about g.

(b)

The packet of flour weighs about g.

(c)

The box weighs about kg.

(d)

The bag of sugar weighs about kg.

Now have a go at the Guided Practice below in your yellow homework book.

Now you have warmed up, you are ready to complete your Maths No Problem worksheets.

MATHS
NO PROBLEM! 

Complete Maths No Problem worksheet 1&2 (pages 167-168). Once you have completed, ask an adult to help check your answers using the MNP website.

Support

If you are finding these worksheets tricky, watch the following BBC bitesize videos to support your learning.

Bitesize
Daily
