

Ivor Goodsite Presentation

Welcome to your talk on building site safety

Meet Ivor Goodsite!

Name: Ivor Goodsite
Company: Goodsite Construction
Job: Site Manager
Skills: Environmentally aware, trained first aider
Likes: Construction, big machinery, teaching children the importance of safety
Dislikes: Incorrect PPE, deep holes, children in danger

Meet Honor Goodsite!

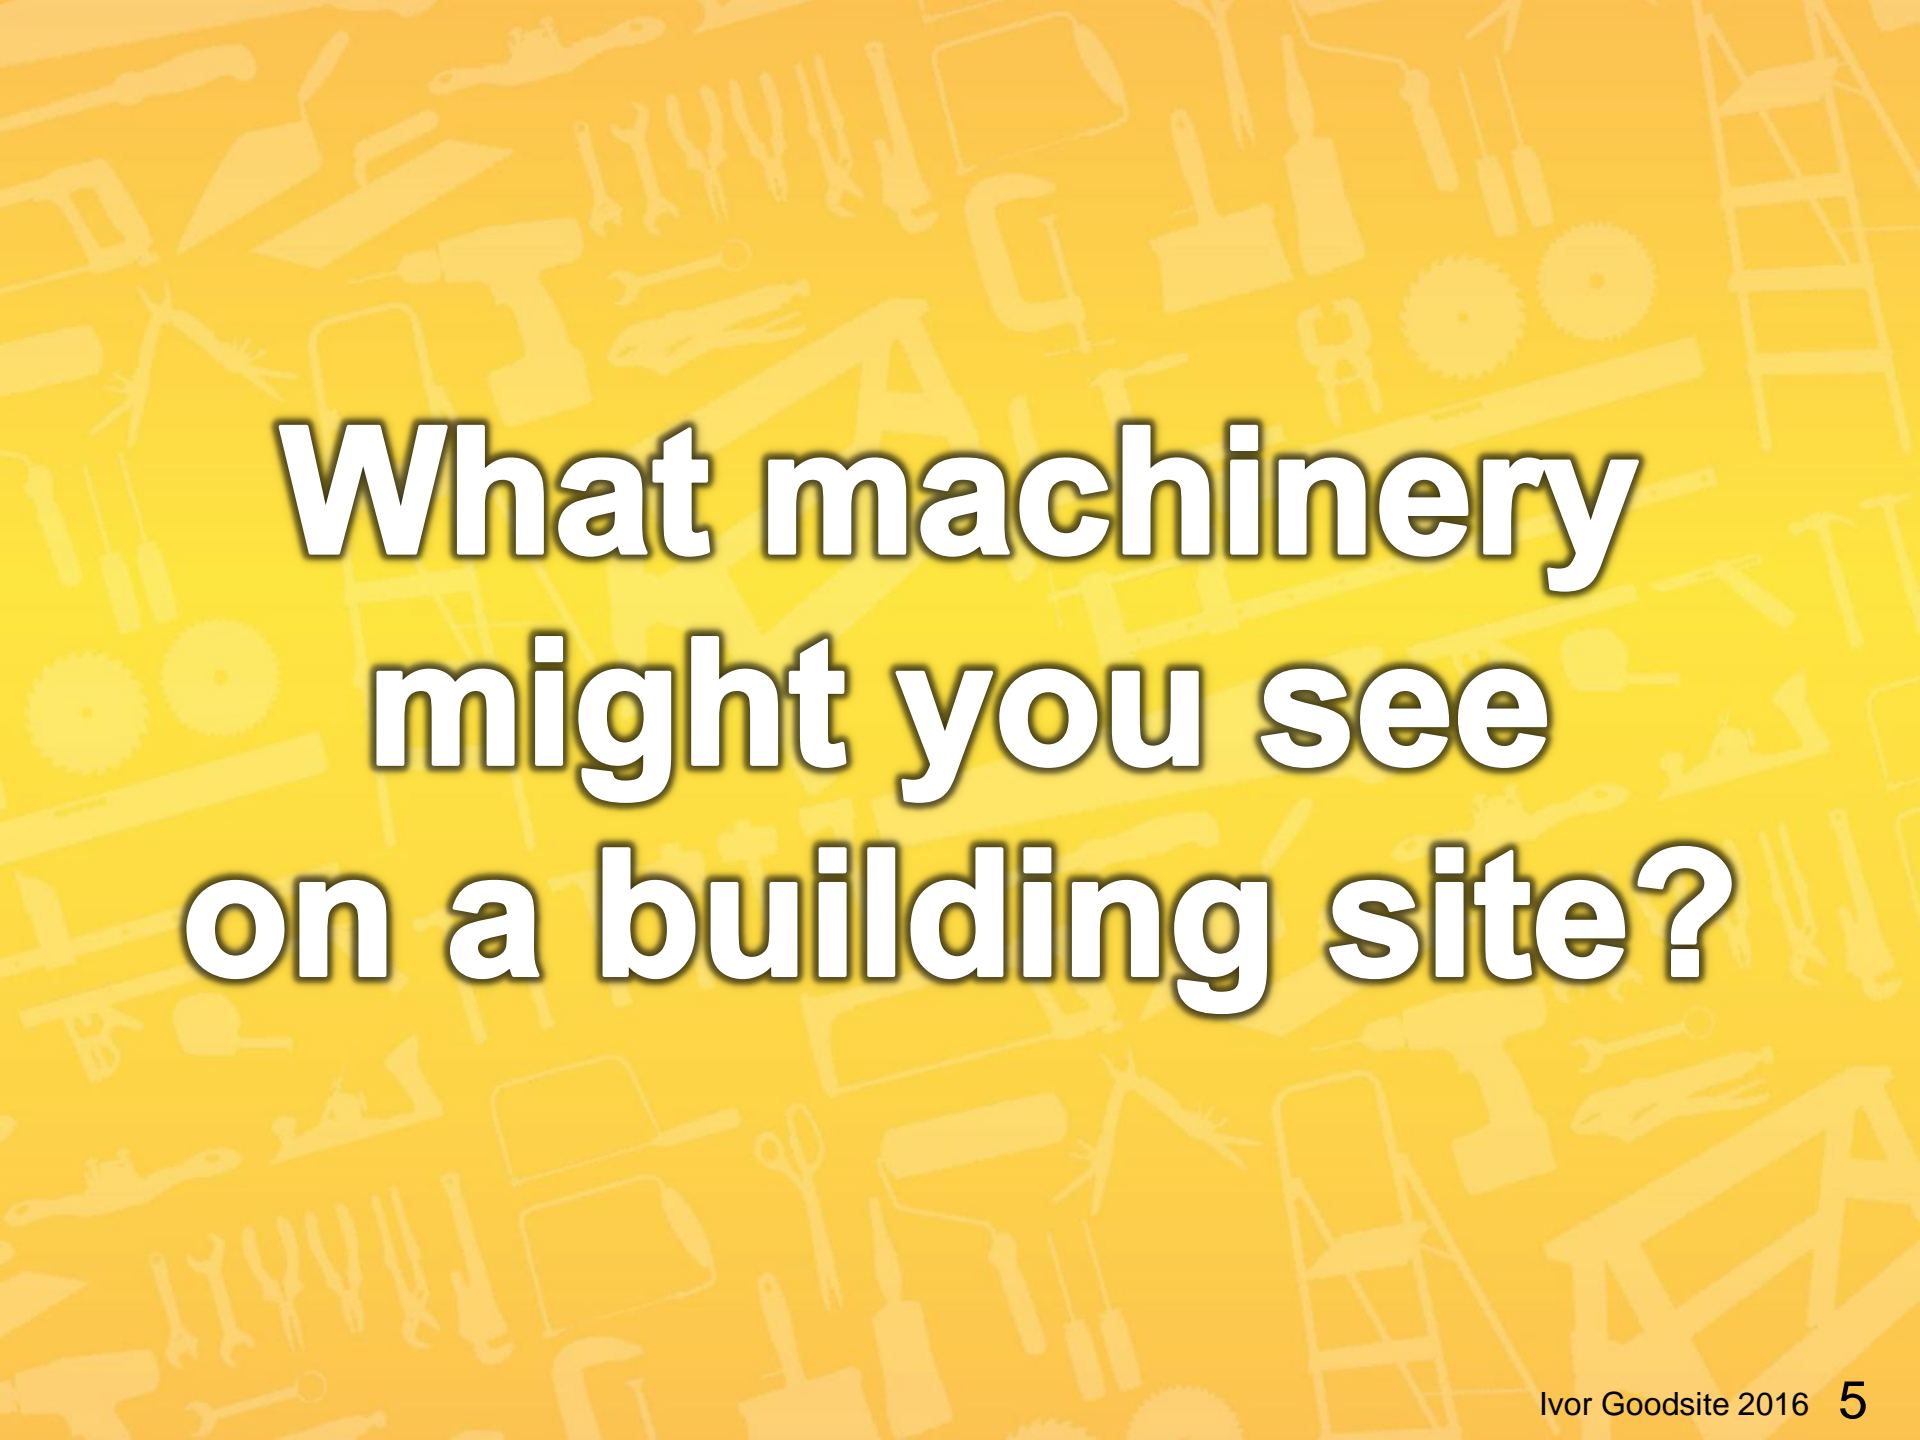

Name:	Honor Goodsite
Company:	Goodsite Engineering
Job:	Structural Engineer
Skills:	Excellent at problem solving, a maths and science whiz!
Likes:	Art and promoting careers in construction
Dislikes:	Untidy looking sites, litter, unfair treatment or bullying

Remember...

Building sites are all around us - there may even be one close to your house or school. But remember, although they may look exciting and fun to play in, they can be very dangerous places... especially for children.

When Ivor and Honor are not working, they regularly visit schools to teach children about the dangers that can be found on building sites, and how to stay safe by staying away.

**What machinery
might you see
on a building site?**

Digger

Crane

Bulldozer

Cement Mixer

Dumper

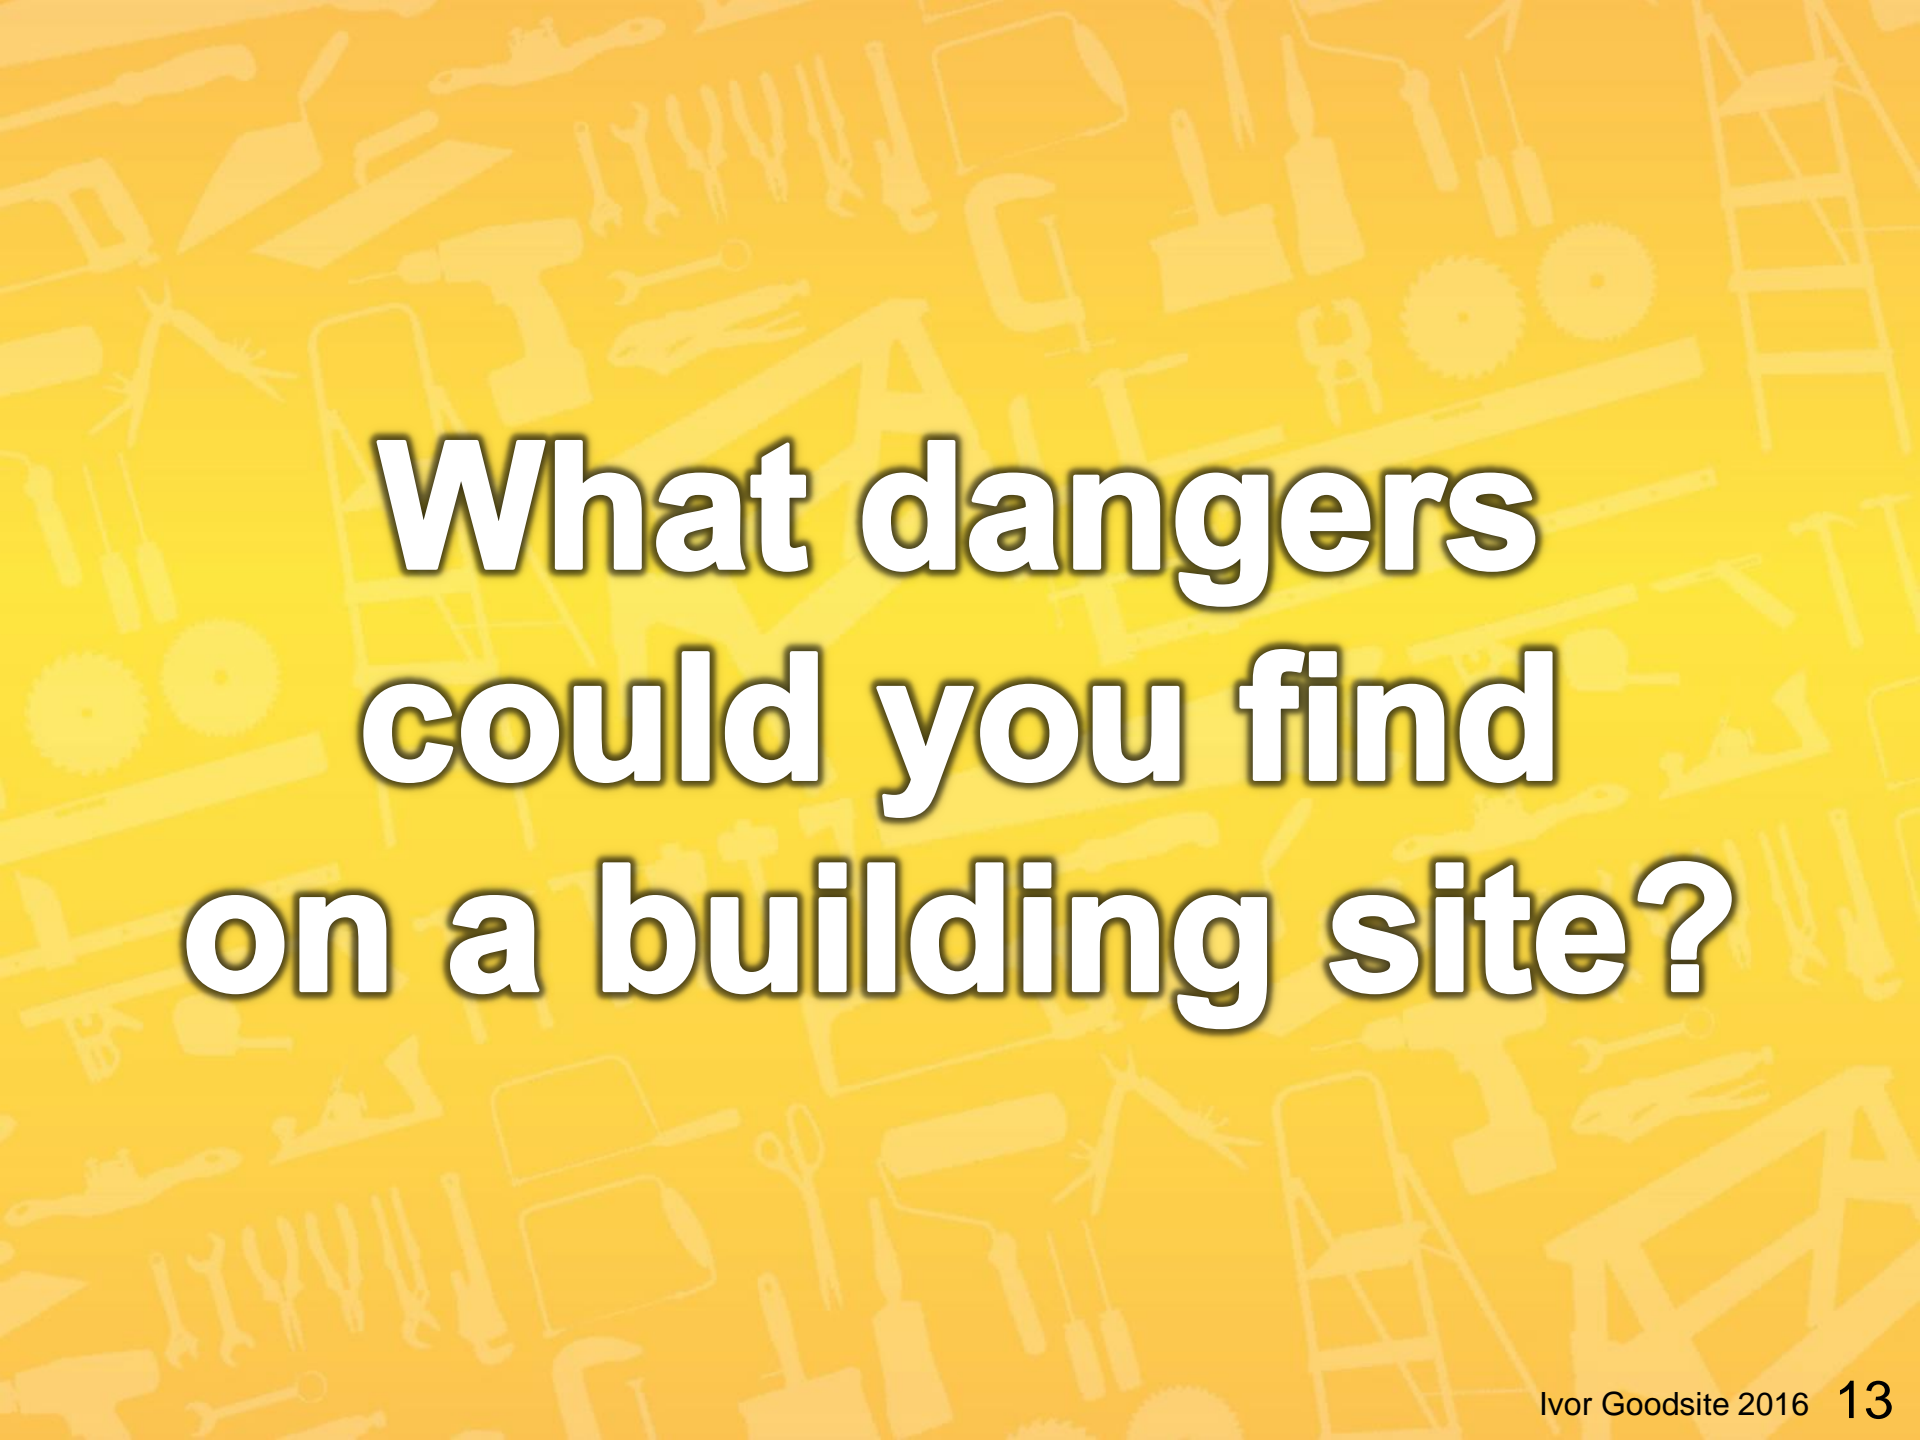

Tipper Truck

WARNING!

Although these machines may look interesting and exciting to play on, they are **very** dangerous and must only be operated by a trained professional.

**What dangers
could you find
on a building site?**

Site dangers

Scaffolding

Trip

Holes

Site machinery

How do operatives stay safe on a building site?

*An operative
is someone
who works
on a building
site*

Protective clothing

Goggles

Hi-Viz jacket

Hard hat

Boots

Protective gloves

Safety equipment

Clear signage

Skin protection

Cones

Fire extinguishers

IMPORTANT!

People working on construction sites are properly trained and wear protective clothing to stay safe.

Please stay safe by staying away from building sites!

Cyclist and pedestrian

Remember to always be careful when walking or cycling near construction sites, making sure to look both ways at site entrances for vehicles going in and out of sites.

Always make sure to stop, look and listen before crossing the road!

What have you learnt?

You must always read and follow safety signs – they are there to keep YOU safe!

You should always be aware of building sites around your neighbourhood and the dangers inside.

If you would like to know more about any building work in your area, you must make sure you ask a responsible adult to help you find out, instead of trying to find out yourself.

You should **NEVER** enter a building site without a responsible adult and the correct protective clothing.

Poster competition

I would now like you to design a poster about something you have learnt today. Here are some ideas for what you could draw:

- Site machinery
- Protective clothing
- Ivor and Honor
- Building site dangers

Question time

**Thanks for
listening!**
